# CHAIRMAN'S STATEMENT

With the worldwide introduction of cellular 5G, the 802.11ax WiFi 6 products we have developed are now supporting most of the 3rd-party 5G cellular modems. This will open up more business opportunities for us to tap into new trending applications that require cellular and WiFi working concurrently.

Dear shareholders, on behalf of the board of director, I am delighted to present to you the annual report of Powermatic Data Systems Limited (the Company) and its subsidiaries (the Group) for the financial year ended 31 March 2020.

### FINANCIAL AND BUSINESS REVIEW

FY2020 was indeed an eventful year for the Group.

Our factory in Suzhou, China was shut down for more than two weeks in February 2020 in compliance with the local regulators' directives to contain the spread of Covid-19. Production activities are currently back to full capacity amid the challenging environment of global economic slow-down, supply chains and logistics disruptions.

Our 2nd production facility in Kulai, Malaysia, has commenced operations in the last quarter of FY2020 to meet the need of our customers who wish to widen supply source.

Despite the multi-fold challenges in managing rising production costs, rising wages and keen Competition amongst peers, the Group is pleased to report a net profit of \$\$ 8.7 million for FY2020, representing an increase of

25% as compared to FY2019.

Revenue grew 4% year-on-year from S\$ 20.95 million in FY2019 to S\$ 21.76 million in FY2020. Our focus in FY2020 was to achieve organic growth by developing our existing businesses, optimize processes to improve efficiency, offering new products, stay competitive in pricing without compromising in product quality or service standard.

Profit before tax rose 28% from \$\$7.73 million in FY2019 to \$\$9.86 million in FY2020. The increase was attributable mainly to revenue growth, higher interest income and increase in foreign exchange gains.

Earnings per share rose 4.98 cents from 20.01 cents in FY2019 to 24.99 cents in FY2020. Net asset value per share as at 31 March 2020 was S\$1.75, rose by 7 cents from FY2019.

The Group's financial position and cash flow remained sound, net asset value stood at S\$61.2 million as at 31 March 2020, of which S\$ 39.2 million were represented by cash and cash equivalent.

The Group has no borrowing as of 31 March 2020 and as of the date of this report.

# CHAIRMAN STATEMENT

### **WIRELESS CONNECTIVITY PRODUCTS**

Our wireless connectivity products segment continued to grow on the strength of product reliability, stringent quality control measures, and our ability to provide flexible, ready-to-go solutions to our customers to achieve shorter to market time.

In addition to the sale of our proprietary product, we also provide OEM, joint design development, and other sales-related services.

Gross profit margins increased by 7% year-on-year, attributable to differences in sales mix and an increase in high value add services.

Currently, our R&D is working hard to bring the latest WiFi technology to the market. Asides from the 802.11ax WiFi 6 products that we have started developing since early 2019 and have since been completed, we now focus on WiFi 6E development.

WiFi 6E has recently been approved by FCC in the USA and is gaining tremendous tractions. WiFi 6E is capable of reducing the interference brought up by the legacy 2.4GHz and 5GHz down to 50% with its wide frequency band to operate with. It is capable of delivering more than 70% more speed than legacy 5GHz.

With the worldwide introduction of cellular 5G, the 802.11ax WiFi 6 products we have developed are now supporting most of the 3rd-party 5G cellular modems. This will open up more business opportunities for us to tap into new trending applications that require cellular and WiFi working concurrently.

Our wireless connectivity products are sold globally. We made considerable progress in increasing our reach in the Asia market in FY2020, representing 43% of the total revenue, followed by USA 33%, Europe 20%, and other regions 4%.

The outbreak of the Covid-19 Pandemic has impacted the world's economies in an unprecedented way. Customers at large, especially those in the hospitality and transportation sector, expect business to slow down in the foreseeable future. Supply chain disruptions and delays in the manufacturing process will invariably stifle the growth in the coming year.

### **PROPERTY**

Property profit rose 11% from S\$ 487,000 in FY2019 to S\$ 539,000 in FY2020. Rental income rose slightly as average occupancy rate improved while property expenses decreased year-on-year due to lower general maintenance expenses and lower agency commission on lease renewals.

The government's legislation mandating the property owners to co-fund the rental relief to tenants will negatively impact the profitability for FY2021. The bleak economic outlook is expected to put pressure on the Group to lower the rental rates upon lease renewals.

### **CAPITAL REDUCTION**

The Board announced on 25 August 2020 that the Company proposes to undertake a Capital Reduction exercise by returning the surplus capital which it no longer requires to the shareholders via cash distribution.

The Board is of the view that the Capital Reduction is in the best interests of the Company as it would result in the Company having a more efficient capital structure, thereby improving Shareholders' return on equity. In determining the level of capital to be returned to Shareholders, the Company has ensured that it retains sufficient capital for business and operational needs.

The Board will be presenting the proposal to the shareholders for approval at the forthcoming EGM.

For further details, please refer to the Circular dated 7 September 2020.

### **DIVIDENDS**

In the light of the impending Capital Reduction exercise, no dividend was proposed or recommended for FY2020.

### **ACKNOWLEDGEMENT**

On behalf of the Board, I would like to extend my appreciation to our shareholders, customers, employees, and business partners for their support in making FY2020 a fruitful year for us.

We will continue to work closely with our customers, business partners, management, and employees to achieve a better year ahead. I look forward to your continued support.

### **COMPANY PROFILE**

Powermatic Data Systems was established in Singapore since 1 February 1989 as a private limited company. The company was listed in the Singapore Stock Exchange since 1992.

Powermatic Data Systems Ltd is an investment holding company. It has six fully owned subsidiaries, Compex Systems Pte. Ltd., Compex Technologies Pte. Ltd., Compex Technologies Sdn. Bhd., Compex Inc, Compex (Suzhou) Co. Ltd., and Compex Wireless (Suzhou) Co. Ltd.

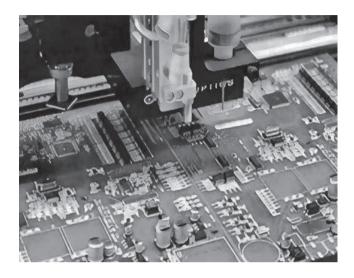

The Group operates under two main segments:

- 1. Manufacturing and sale of Wireless Connectivity products and related services.
- 2. Lease and maintenance of Harrison Industrial Building, a freehold investment property owned by the Company.

### **Wireless Connectivity Products & Services**

Wireless connectivity is the core business and the main profit driver of the Group. Apart from manufacturing its own designed wireless connectivity hardware and software (design capabilities to value-add upon full

range of hardware for quicker time-to-market solutions), the group also provides OEM, ODM solutions and other sales related services to customers.

Our product range includes high performance wireless radio modules, embedded boards, indoor and outdoor access points and wireless antennas. These products are used in various industries such as Industrial PC, IOT, Healthcare, Hospitality, Security surveillance and many others.

We are in a strong partnership with Qualcomm Atheros (QCA). Our subsidiary Compex Systems Pte Ltd is officially appointed as Qualcomm Authorized Design Center in South East Asia. As a Qualcomm design center, we provide our wireless knowhow in both hardware and software services to many multinational corporations.

Our clientele includes reputable distributors of electronic and wireless device components, system integrators, wireless products design houses, and Fortune 500 corporations.

### **Freehold Investment Property**

The Group's property business is carried out by the holding company Powermatic Data Systems itself. The freehold property is situated at 7 & 9 Harrison Road, Singapore, 369651. We house our Singapore operations in one of the units and rent out the rest.

### **CORE COMPETENCE**

### Original Equipment Manufacturing (OEM)

While Qualcomm reference
designs are good performance
references, they may not be
optimal in terms of form factor,
RF/consumption compromise or
power supply flexibilities as
commercial products. We adapt the
reference designs to OEM models based on
our experience of commercial requirements.
These may involve size and functionality
compromises but often include
application specific functionalities
such as 5G/LTE modem integration.
Our OEM products are often found in
our customers' commercialized
products.

# Building Qualcomm's Reference Design

We reproduce Qualcomm's reference designs from the design files provided by Qualcomm.
As a service of Qualcomm Authorized Design Center, we supply these reference design boards to customers for initial evaluation and software development.

### Original Design Manufacturing (ODM)

Our customers come from many different industries with very different requirements. We meet customer specific requirements with ODM designs. Such designs can involve special interfaces, special power supply requirements, operating under severe environments, unique antennas, or form factor/heat dissipation compromises. We also typically value add to customer's software in performance optimization and certification compliance.

# **Qualcomm Driver Porting**

Customers who wish to use Qualcomm radios on non-Qualcomm platforms such as NXP, Marvell and Intel platforms often encounter difficulties as the official Qualcomm drivers with the latest features are not on open source release.

Compex provides Basic Software Packages (BSP) for various non-Qualcomm platforms, allowing Qualcomm's radio modules to work on platforms based on NXP, Marvell and Intel processors, taking advantage of the well-polished features of the latest official Qualcomm drivers.

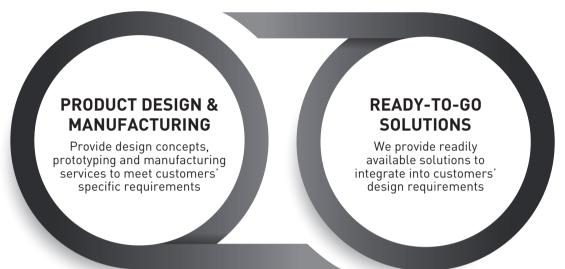

### CompexWRT SDK

With Compex software team expertise, customers can tap into our experiences to modify or enhance proprietary hardware drivers and firmware user interfaces and develop features that add more values and differentiation to a customer's complete solution targeted at their specific market.

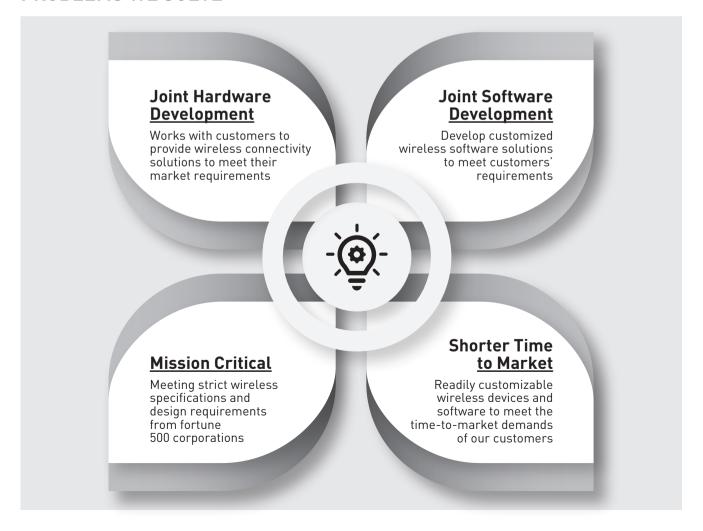

While Qualcomm's proprietary driver is not made available as an open-source option, CompexWRT Software Development Kit (SDK), a firmware that's based on OpenWRT and wireless driver derived from Qualcomm's proprietary driver, can be provided for customers who choose to develop on top of our OEM or ODM products.

Provision 1.1 of the Code: Directors are fiduciaries who act objectively in the best interests of the company (cont'd)	The Board's role is to:  a) Oversees the management of the Group; b) Set strategic objectives and ensure that the necessary financial, strategies and human resources are in place for the Group to meet its objectives; c) Delegates the formulation of business policies and the day-to-day management of the Group to the Executive Director and Chief Executive Officer ("CEO") and management to ensure operations and performance of the Group are aligned with the strategies; and d) Consider sustainability issues, e.g. environmental and social factors as part of its strategic formulation.  The Board ensures the decisions made are objectively in the interest of the Company. The Board provides shareholders with a balanced and clear assessment of the Group's performance, financial position and prospects on a half-yearly basis. While the Board remains responsible for providing oversight in the preparation and presentation of the financial statements, it has delegated to the management the task of ensuring that the financial statements are drawn up and presented in compliance with the relevant provisions of the Singapore Companies Act, Chapter 50 ("the Act") and the Singapore Financial Reporting Standards (International) ("SFRS").
Provision 1.2 of the Code: Directors' duties, induction, training and development	To enable the Directors to understand the Company's business as well as their Directorship duties and roles, the Directors receive regular updates on relevant new laws and regulations from the Company's relevant advisors.  Newly-appointed Directors will be briefed on the business and organisation structure of the Group and its strategic plans and objectives. The orientation for new Directors includes visits to the Group's key premises to familiarise themselves with the Company's operations. Such visits also allow new Directors to get acquainted with senior management, thereby facilitating interaction with the Board and independent access to senior management. Appropriate training shall be arranged upon request by newly-appointed Directors to ensure that newly-appointed Directors are fully aware of their responsibilities and obligations as Directors. Rule 210(5)(a) of the Listing Manual ("Listing Manual") of the Singapore Exchange Securities Trading Limited ("SGX-ST") requires a Director who has no prior experience as a Director of a company listed on the SGX-ST, to attend the training programmes conducted by the Singapore Institute of Directors ("SID") as prescribed in Practice Note 2.3 of the Listing Manual of the SGX-ST. Newly appointed Directors will receive a formal letter of appointment setting out his/her duties and responsibilities. There is no new appointment in the financial year ended 31 March 2020.  The Directors have attended appropriate training on governance practices, enterprise risk management and relevant statutory and regulatory compliance issues. The Company encourages all Directors to receive regular training, particularly on new laws, regulations and commercial risk from time to time. The Directors keep

Separate and Independent access to management, company secretary and external advisers; Appointment and removal of the company secretary	The Board takes independent professional advice as and when necessary concerning any aspect of the Group's operations or undertakings to discharge its responsibilities effectively. Any cost of obtaining professional advice will be borne by the Company.  The role of the Company Secretary is clearly defined and includes responsibility for ensuring that board procedures are followed and that applicable rules and regulations are complied with. The responsibilities of the Company Secretary include:  (a) administers, attends and prepares minutes of all Board and Board Committees meetings;  (b) assists the Board in ensuring that the Company complies with the relevant requirements of the Act and Listing Rules;  (c) advises the Board on all corporate governance matters;  (d) assists the Independent Non-Executive Chairman in ensuring good information flows within the Board, Board Committees and between the management and the independent Directors; and  (e) a communication channel between the Company and SGX-ST. The Company Secretary attends all Board and Board Committees meetings and is responsible to ensure that Board procedures are followed.  The appointment or removal of the Company Secretary is subject to the approval of the Board as a whole.

PROVISIONS	CORPORATE GOVERNANCE REPORT	
BOARD COMPOSITION AND GUIDANCE	Principle 2: The Board has an appropriate level of independence and diversity of thought and background in its composition to enable it to make decisions in the best interests of the company.	
Provision 2.1 of the Code: Director Independent	There is a strong independent element on the Board with independent Directors constituting more than one-third of the Board. Currently, the Board consists of five Directors of whom three are independent.	
Provision 2.2 of the Code:	The Company has more than half the Board with independent Directors as the Chairman is an Executive Non-Independent Director.	
Independent Directors make up a majority of the Board  Provision 2.3 of the Code: Non-executive Directors make up a majority of the Board	Each Independent Director was required to complete a confirmation of independence, drawn up according to the guidelines stated in the Code of Corporate Governance, to confirm his independence. The Independent Directors shall disclose to the Board any relationships or circumstances which are likely to affect, or could appear to affect, his judgement. The independence of each Director is reviewed annually by NC. Based on the annual review of the independence of the Independent Directors according to the guidelines stated in the Code, the NC ascertained that all Independent Directors are independent.  As at the end of FY2020, Mr. Yee Lat Shing, Tom, Dr. Lye Kin Mun and Mr. Tan Chao Hsiung, David have served on the Board beyond nine years from the date of their first appointments. The NC and the Board have conducted a rigorous review of their independence and contributions to the Board to determine if they still remained independent and carry out their duties objectively. Under such rigorous review, each Independent Director has confirmed that neither he nor any of his immediate family has any relationship or business dealings with a controlling shareholder, Director or key management personnel or their associates that would give rise to a conflict of interest or impairment of the Independent Director's independence. The NC and the Board are of the view that Mr. Yee Lat Shing, Tom, Dr. Lye Kin Mun and Mr. Tan Chao Hsiung, David possess valuable experience and knowledge, as well as maintain their objectivity and independence at all times in the discharge of each of their duties as Director of the Company.

PROVISIONS	CORPORATE GOVERNANCE REPORT
Provision 2.4 of the Code: Composition and size of the Board and Board Committees, Board	The Company has in place the Board Diversity Policy with a view to achieving a sustainable and balanced development as the Company sees diversity at the Board level as an essential element in supporting the attainment of its strategic objectives and its sustainable development. In designing the Board's composition and selection of new Board members, the Board strives to ensure that:
diversity policy	<ul> <li>(a) All candidates are included for consideration during the search for new appointments to the Board regardless of gender, age, nationalities or ethnicity;</li> <li>(b) There is an appropriate mix of gender representation on the Board, taking into account the skills and experience the candidates can contribute; and</li> <li>(c) External search consultants when looking for suitable candidates for appointment to the Board will be specifically directed to include diverse candidates and women candidates in particular.</li> </ul>
	The Board has examined its size and is of the view that it is an appropriate size for efficient and effective decision-making, taking into account the scope and nature of the operations of the Company. The Board currently comprises one woman Director, namely, Ms. Ang Bee Yan, Katherine. The NC is of the view that no individual or small group of individuals dominate the Board's decision-making process.
	The Company has a good balance of Directors with a wide range of skills, experience and qualities in the fields of operations, management, financial, legal and accounting.
	Each Director has been appointed on the strength of his calibre, experience, grasp of corporate strategy and potential to contribute to the Company and its businesses. Each Director brings valuable insights from different perspectives, such as strategic planning, management, finance, accounting and legal, vital to the strategic interests of the Company. Profiles of the Directors are found in the "Profile of Directors" section of the Annual Report. The Board considers that the current composition of the Board encompasses an appropriate balance and diversity of skills, experience, gender, knowledge and competencies to provide the management with a diverse and objective perspective on issues so as to lead and govern the Company effectively.
Provision 2.5 of the Code: Independent Directors meet regularly without the presence of the Management	To facilitate a more effective check on the management, the Independent Directors meet at least once a year, each with the Group's Internal and External Auditor without the presence of the management. Where necessary, the Company co-ordinates informal meeting sessions for Non-Executive Directors and Independent Directors to meet without the presence of the management.

PROVISIONS	CORPORATE GOVERNANCE REPORT	
CHAIRMAN AND CHIEF EXECUTIVE OFFICER	Principle 3: There is a clear division of responsibilities between the leadership of the Board and Management, and no one individual has unfettered powers it decision-making.	
Provision 3.1 of the Code: Chairman and CEO should be separate persons	Dr. Chen Mun, who is both the Chairman and Chief Executive Officer ("CEO") of the Company, leads the Board. This practice has been carried on since inception and he leads the Board meetings because of his in-depth knowledge of the Group's operations as well as his excellent relationship with the customers, suppliers and other external parties that carry on business with the Group.	
Provision 3.2 of the Code: Division of responsibilities between the Chairman and the CEO  Provision 3.3 of the Code: Lead Independent	Dr. Chen Mun is responsible for the proper workings of the Board which include the scheduling of meetings, setting of Board meeting agenda in consultation with the Company Secretary, exercising of control over quality and timeliness of information flow between the Management and the Board, managing the business of the Board and Board Committees, monitoring the translation of the Board's decision and wishes into executive actions and is assisted by the three Board Committees in ensuring compliance with the Company's guidelines on corporate governance.  The Board has a strong independent group of Directors to look after shareholders'	
Director	interests. The day-to-day running of business operations are delegated to key senior executives while the Chairman focuses on the long term and strategic plans of the Company.  The Board is mindful of the desirability of separating the two functional positions.	
	However, it believes that the vulnerability of the dual roles, if any, is considerably lessened by the checks and balances energetically exercised by a board that comprises the majority of independent directors. In practice, all major decisions made by the Executive Chairman are reviewed by the independent directors and reported to the Board.	
	The NC and the Board unanimously support Dr. Chen Mun's role as both Chairman and CEO. The Board is of the view that the current single leadership arrangement works well; in particular it does not hinder the decision-making process of the Company unnecessarily.

PROVISIONS	CORPORATE GOVERNANCE REPORT	
Provision 4.3 of the Code: Process for the selection, appointment and re-appointment of Directors	When the need for a new Director to replace a retiring Director arises, or where it considered that the Board would benefit from the services of a new Director with particular skills, the NC, in consultation with the Board, determines the selection criteria. Candidates would first be sourced through an extensive network of contact and identified based on the needs of the Group and relevant expertise and experience required. The NC may engage recruitment consultants to undertake research on assess candidates for a new position on the Board, or to engage such other independent experts, if necessary. After the Board has interviewed the candidate the NC would further shortlist and recommend the candidates for appointment to the Board. The Board has the final discretion in appointing new Directors.  The NC recommends the appointment and re-election of Directors to the Board for	
	<ul> <li>approval based on the following criteria:</li> <li>(a) Expertise and experience of the candidate and whether they have discharged their duties adequately as Directors of the Company, officers of other companies and/or professionals in the area of expertise;</li> <li>(b) Independence of the candidate (for Independent Directors);</li> <li>(c) Appointment or re-appointment will not result in non-compliance with any composition requirements for the Board and Board Committees; and</li> <li>(d) Whether the candidate is a fit and proper person following the Monetary Authority of Singapore's ("MAS") fit and proper guidelines, which broadly take into account the candidate's honesty, integrity and reputation; his competence and capability; and financial soundness.</li> <li>Each member of the NC shall abstain from voting on any resolution in respect of the assessment of his performance or re-nomination as a Director.</li> <li>The Board of the Company does not comprise any alternate Director. No alternate Director was appointed throughout FY2020.</li> </ul>	
Provision 4.4 of the Code: Circumstances affecting Directors' Independence	Having regard to the circumstance sets set forth in Provision 2.1 of the Code, the Directors disclose their relationships with the Company, its related corporations, its substantial shareholders or its officers, if any, which may affect their independence, to the Board under the declaration of section 156 of the Act.  The NC is responsible for determining annually whether or not a Director is independent for purpose of the Code. Each Independent Director is required to complete a confirmation of independence, drawn up according to the guidelines stated in the Code, to confirm his independence. He is required to disclose to the Board any relationships or circumstances which are likely to affect, or could appear to affect, his judgement. Based on the annual review of the independence of the Independent Directors according to the guidelines stated in the Code, the NC ascertained that all independent Directors are independent for the purpose of the Code.	

PROVISIONS	CORPORATE GOVERNANCE REPORT
Provisions 1.5 and 4.5 of the Code: Multiple listed company Directorship and other	When a Director has multiple listed company Directorship and other principal commitments, the NC also considers whether or not the Director is able to and has adequately carried out his duties as a Director of the Company.
principal commitments	The NC believes that putting a maximum limit on the number of Directorships a Director can hold is arbitrary, given that time requirements for each vary, and thus should not be prescriptive.
	The NC is satisfied that sufficient time and attention were given by the Directors to the affairs of the Company during FY2020, notwithstanding that they hold Directorships in other listed companies and have other principal commitments, and will continue to do so in FY2021.
	The list of Directorships held by Directors presently or in the preceding three years in other listed companies, and other principal commitments are set out in the "Board of Director" section of the Annual Report.
BOARD PERFORMANCE	Principle 5: There Board undertakes a formal annual assessment of its effectiveness as a whole, and that of each its board committees and individual Directors.
Provision 5.1 and 5.2 of the Code: Assessment of effectiveness of the Board and Board committees and assessing the	The NC is responsible for evaluating the performance and effectiveness of the entire Board, the Board Committees and individual Director on a yearly basis. The performance evaluation framework is in the form of assessment questionnaires and the evaluation covers amongst other, Board and Board Committees' compositions, processes in managing the Group's performance, the effectiveness of the Board, Board Committees as well as to conduct, mix of skills, knowledge, competencies and contribution of each Director to the Company in discharging their function.
contribution by the Chairman and each Director	The questionnaires are completed by the members of the Board and Board Committees and each Director for self-assessment. The completed questionnaires are collated by the Company Secretary for deliberation by the NC. The NC led by its Chairman, reviews the outcome of the evaluation and recommends to the Board on areas for continuous improvement as well as for them to form the basis of recommending relevant Directors for re-election at the AGM. The Chairman will act on the results of the performance evaluation and in consultation with the NC, propose, where appropriate, new members to be appointed to the Board or seek the resignation of Directors.
	During the FY2020, the NC met once and assessed the Board, Board Committees and individual Directors. The NC was satisfied with the outcome of the evaluations and both the NC and the board are of the view that the board has met its performance objectives for FY2020. No external facilitator was engaged in the performance assessment.

PROCEDURES FOR DEVELOPING REMUNERATION POLICIES	Principle 6: There Board has a formal and transparent procedure for developing policies on Director and executive remuneration, and for fixing the remuneration packages of individual Directors and key management personnel. No Director should be involved in deciding his or her own remuneration.
Provision 6.2 of the Code: Composition of RC	The RC comprises Mr. Tan Chao Hsiung, David, Dr. Lye Kin Mun and Mr. Yee Lat Shing, Tom, all of whom are non-executive and independent Directors. The Chairman of the RC is Mr. Tan Chao Hsiung, David.
Provision 6.1 of the Code: RC to recommend remuneration framework and packages	The key Terms of Reference of the RC are as follows:  (a) review and recommend to the Board a general framework of remuneration for the Board and key management personnel; (b) review and recommend to the Board the specific remuneration packages for each Director and key management personnel; (c) review and recommend to the Board the terms of renewal of the service agreements of Executive Directors; (d) determine the appropriateness of the remuneration of non-executive Directors taking into consideration their effort, time spent, responsibilities and level of contribution; (e) review the ongoing appropriateness and relevance of the Company's remuneration policy; (f) administer the Powermatic Data Systems Employees' Share Option Scheme 2013 and any other share option scheme established from time to time for the Directors and the management; (g) work and liaise, as necessary, with all other Board Committees on any other matters connected with remuneration matters; and (h) generally undertake such other functions and duties as may be required by the Board under the Code, statute or SGX Listing Rules (Mainboard).  The recommendations of the RC shall be submitted for endorsement by the Board. The RC covers all aspects of remuneration, including Directors' fees, salaries, allowances, bonuses, grant of shares and share options and benefits-in-kind. Each RC member shall abstain from voting on any resolutions in respect of his remuneration package.

PROVISIONS	CORPORATE GOVERNANCE REPORT
Provision 6.3 of the Code:	The RC is responsible for all aspects of remuneration, including termination terms.
RC to consider and ensure are aspects of remuneration are fair.	The remuneration structure of the Executive Directors and key executives consist of both fixed and variable components.
remaneration are fam.	The variable component is performance-related and is linked to the Group's performance as well as individual's performance. Such performance-related remuneration is designed to align with the interests of shareholders.
	The Executive Directors have service contracts and do not receive directors' fees. Their compensations consist of salary, bonuses, options and performance awards that are dependent on the performance of the Group. The Executive Directors' service contracts are subject to review every two or three years. The RC is of the view that the Directors' service contracts are not excessively long or with onerous removal clauses.
	The Independent Directors are compensated through directors' fees. Directors' fees comprise a basic retainer fee and fees in respect of service on Board Committees. These fees are subject to shareholders' approval at the AGM.  Each member of the RC refrains from voting on any resolutions in respect of the assessment of his own remuneration and no RC member or Director is involved in deciding his own fee.
	The RC met once in FY2020. The remunerations of the Executive Directors are reviewed by the RC. The NC, together with the RC, decides on the specific remuneration package for an Executive Director upon recruitment. Thereafter, the RC reviews subsequent increments, bonuses and allowances where these payments are discretionary. No Director or member of the RC is involved in deciding his own remuneration. The RC reviews what compensation commitments the Executive Directors' service contracts would entail in the event of early termination by either the Company or Executive Directors giving to the other at least two months' prior written notice.
	The RC will seek expert advice on the remuneration of all directors, if necessary.
Provision 6.4 of the Code: Expert advice on remuneration	The RC members are familiar with management compensation matters as they manage their own businesses and/or are holding Directorships in other listed companies. If necessary, the RC may seek professional advice on remuneration of all Directors. During FY2020, no external remuneration consultants were engaged.

PROVISIONS	CORPORATE GOVERNANCE REPORT
LEVEL AND MIX OF REMUNERATION	Principle 7: The level and structure of remuneration of the Board and key management personnel are appropriate and proportionate to the sustained performance and value creation of the company, taking into account the strategic objectives of the company.
Provision 7.1 and 7.3 of the Code: Executive Directors and key management personnel's remuneration to be linked to corporate and individual performance and aligned with interests of shareholders; Remuneration is appropriate to provide good stewardship and promote long-term success of the Company	The remuneration structure of the Executive Directors and key executives consist of both fixed and variable components. The variable component is performance-related and is linked to the Group's performance as well as individual's performance. Such performance-related remuneration is designed to align with the interests of shareholders.  The variable component which comprises bonuses is linked to the performance of the Company and the individual. In FY2020, variable or performance-related income/bonus made up between 2.43% to 32.73% of the total remuneration of the Executive Director and Chief Executive Director and each of the Group's key management personnel. The remuneration package is designed to enable the Company to stay competitive and allows the Company to better align executive compensation with shareholder value creation.  In setting remuneration packages, the RC ensures that the Directors are adequately but not excessively remunerated as compared to the market employment conditions. The RC also ascertained that Independent Directors are not overly-compensated to the extent that their independence may be compromised.
Provision 7.2 of the Code: Remuneration of non-executive Directors dependent on contribution, effort, time spent and responsibilities	None of the Non-Executive Directors and Independent Directors have service agreements with the Company or receive any remuneration from the Company. They are paid Directors' fees, which are determined by the Board based on their contribution, effort, time spent and responsibilities. The Directors' fees are subject to approval by the Shareholders at each AGM.
DISCLOSURE ON REMUNERATION	Principle 8: The company is transparent on its remuneration policies, level and mix of remuneration, the procedure for setting remuneration, and the relationships between remuneration, performance and value creation.

PROVISIONS	CORPORATE GOVERNANCE REPORT
Provision 8.2 of the Code:	REMUNERATION OF EMPLOYEE WHO IS AN IMMEDIATE FAMILY OF DIRECTOR(S)
Remuneration disclosure of related employees	There is no immediate family member of a director, CEO or substantial shareholders in employment with the Group and whose remuneration exceeds \$\$100,000 for the financial year ended 31 March 2020, except for Ms. Ang Lay Hoon, Operations Manager, who is the sister of Ms. Ang Bee Yan Katherine, Executive Director of the Company.
Provision 8.3 of the Code:	POWERMATIC DATA SYSTEMS EMPLOYEES' SHARE OPTION SCHEME 2013
Details of employee share schemes	The Company has adopted the Powermatic Data Systems Employees' Share Option Scheme 2013 (the "2013 Scheme"), which was approved by the shareholders at the Extraordinary General Meeting held on 25 July 2013.
	The 2013 Scheme is a share incentive scheme designed to acknowledge the contributions made by the employees and to give recognition to such employees by giving them the opportunity to have a personal stake in the Company and to attract, motivate and retain talented staff for the Company's domestic and international operations.
	Under the rules of the 2013 Scheme, all directors and full-time employees of the group are eligible to participate in the Scheme except for employee or director who is also a controlling shareholder or an associate of a controlling shareholder. Employees of the Company's associated companies are not eligible under the 2013 Scheme. The Company has no associated companies for FY2020.
	As at the date of this Annual Report, no Options were released and no Awards were granted to the Independent Directors of the Company. No Options were granted to any Directors of the Company, controlling shareholders and their associates pursuant to the vesting of the Awards under the 2013 Scheme. No employee in the Group has received shares which, in aggregate, represent 5% or more of the aggregate of the total number of shares available under the 2013 Scheme.
	The 2013 Scheme is administered by the RC comprising of Mr. Tan Chao Hsiung, David (Chairman) and two other independent directors of the Company, Dr. Lye Kin Mun and Mr. Yee Lat Shing, Tom.
	Information on 2013 Scheme is set out in the Statement by Directors on pages 39 and 40.

PROVISIONS	CORPORATE GOVERNANCE REPORT
	ACCOUNTABILITY AND AUDIT
RISK MANAGEMENT AND INTERNAL CONTROLS	Principle 9: The Board is responsible for the governance of risk and ensures that Management maintains a sound system of risk management and internal controls, to safeguard the interests of the company and its shareholders.
Provision 9.1 of the Code: Board determines the nature and extent if the significant risks	The Management has put in place an internal control and risk management system to safeguard shareholders' investment and company's assets.  The system of internal control provides reasonable, but not absolute assurance that the Group will not be adversely affected by any event that could be reasonably foreseen in the light of the current business environment and its inherent risks.  The Group, with the help of Internal Auditors, has prepared documentation on its risk
	profile which summarizes the material risks faced by the Group and the countermeasures in place to manage or mitigate those risks for the review by the AC and the Board. The documentation provides an overview of the Group's key risks, how they are managed, and the various assurance mechanisms in place. It allows the Group to address the on-going changes and the challenges in the business environment, reduces uncertainties and facilitates the shareholder value creation process.
	On an annual basis, the internal auditors prepare the internal audit plan approved by the AC. The audit plan takes into consideration the risks identified in the risk profile document and the audits are conducted to assess the adequacy and the effectiveness of the Group's risk management and the internal control systems put in place, including financial, operational, compliance and information technology controls. Any material non-compliance or lapses in internal controls, together with recommendations for improvement are reported to the AC. The AC reviews these reports and ensures that appropriate and timely counter-measures are taken by Management as part of its continuous improvement efforts to further enhance its internal control systems and practices. A copy of the report is also issued to the relevant subsidiaries for their follow-up action. The timely and proper implementation of all required corrective, preventive or improvement measures are closely monitored. In addition, the external auditors would highlight control weaknesses on financial reporting that came to their attention during the course of the statutory audit.
	The Company is committed to managing all risks in a proactive and effective manner. This requires high-quality risk analysis to inform management decisions taken at all levels within the Group. Risk analysis and management is undertaken within the Group as a source of sustainable business benefits and competitive advantage. Managing threats and maximising opportunities will ensure that business objectives are met in the most effective way possible, leading to increased value for the business and its stakeholders.

PROVISIONS	CORPORATE GOVERNANCE REPORT
Provision 9.1 of the Code: Board determines the nature and extent if the significant risks (cont'd)	The Company has internal processes to determine the level of risk tolerance and ensure the consistency and quality of risk analysis and management. The process includes six elements:  (a) establishing the context; (b) risk identification; (c) risk prioritisation; (d) risk mitigation; (e) risk reporting; and (f) risk updates.  The purpose of engaging in such a process is to ensure that the goals and objectives of the corporate strategy of the Group are achieved.  The Group's Internal Auditor, Nexia TS, carry out internal audit on the system of internal controls and report the findings to the AC. The Group's External Auditor, RSM Chio Lim LLP, have also carried out, in the course of their statutory audit, an understanding of the key internal accounting controls assessed to be relevant to the statutory audit. In this respect, the AC has reviewed the findings of both the Internal and External Auditor and will ensure that the Company follows up on the Auditors' recommendations raised during the audit process.  The Group's Statutory financial statements for the year were audited by RSM Chio Lim LLP and the AC has recommended to the Board that RSM Chio Lim LLP be nominated for re-appointment as External Auditor at the forthcoming AGM.  The Board conducted a review and assessment of the adequacy and effectiveness of the Company's risk management and internal control systems including financial, operational, compliance and information technology controls. The assessment was made by discussions with the management of the Company.
Provision 9.2 of the Code: Assurance from CEO, FM and other key management personnel	The Company does not have a Chief Financial Officer. The Board also received assurance from the Executive Director and CEO and the Group's Finance Manager ("FM") that:  (a) the financial records have been properly maintained and the financial statements give a true and fair view of the Company's operations and finances; and  (b) the Company's risk management and internal control systems are adequate and effective.

PROVISIONS	CORPORATE GOVERNANCE REPORT
Provision 9.2 of the Code: Assurance from CEO, FM and other key management personnel (cont'd)	Based on the internal controls established and maintained by the Group, regular audits, monitoring and reviews performed by the Internal Auditor and External Auditor, review of the risk assessment reports, assurance from the CEO and the Group's FM, reviews performed by the management, the Board, with the concurrence of the AC, is of the opinion that the system of internal controls (including financial, operational, compliance and information technology controls) and risk management systems in place are adequate and effective in addressing the financial, operational, compliance and information technology risks as at 31 March 2020 which the Group considers relevant and material to its current business scope and environment.  The Board and the AC noted that all internal controls contain inherent limitations and no systems of internal controls could provide absolute assurance against the occurrence of material errors, poor judgement in decision making, human error, losses, fraud or other irregularities. The Board will continue its risk assessment process, which is an on-going process, with a view to improve the Company's internal controls system.
AUDIT COMMITTEE	Principle 10: The Board has an Audit Committee ("AC") which discharges its duties objectively.
Provision 10.1 and 10.2 of the Code: Duties and composition of the AC	The Audit Committee ("AC") comprises Mr. Yee Lat Shing, Tom, Dr. Lye Kin Mun and Mr. Tan Chao Hsiung, David, and, all of whom are non-executive and independent Directors. The Chairman of the AC is Mr. Yee Lat Shing, Tom.  The Board is of the view that the members of the AC have sufficient financial management expertise and experience and are qualified to discharge the AC functions.  The key Terms of Reference of the AC are as follows:  (a) review the financial statements and the External Auditor's report on those financial statements before submission to the Board for approval, focusing in particular, on significant financial reporting issues and judgements, changes in accounting policies and practices, major risk areas, significant adjustments resulting from the audit, the going concern statement, compliance with accounting standards as well as compliance with any stock exchange and statutory/regulatory requirements;  (b) review assurance from the Executive Director, the CEO and the Group's FM on the financial records and financial statement and assurance from them and
	other key management personnel who are responsible for the adequacy and effectiveness of the risk management and internal control systems;

#### 6. INDEPENDENT AUDITOR

RSM Chio Lim LLP has expressed willingness to accept re-appointment.

#### 7. REPORT OF AUDIT COMMITTEE

The members of the audit committee at the date of this report are as follows:

Yee Lat Shing, Tom (Chairman of audit committee, independent and non-executive director)

Dr. Lye Kin Mun (Independent and non-executive director)
Tan Chao Hsiung, David (Independent and non-executive director)

The audit committee performs the functions specified by section 201B(5) of the Act. Among other functions, it performed the following:

- Reviewed with the independent external auditor their audit plan.
- Reviewed with the independent external auditor their evaluation of the company's internal accounting
  controls relevant to their statutory audit, and their report on the financial statements and the assistance
  given by management to them.
- Reviewed with the internal auditor the scope and results of the internal audit procedures (including those
  relating to financial, operational and compliance controls and risk management) and the assistance given
  by the management to the internal auditor.
- Reviewed the financial statements of the group and of the company prior to their submission to the directors of the company for adoption.
- Reviewed the interested person transactions (as defined in Chapter 9 of the Singapore Exchange Securities Trading Limited's Listing Manual).

Other functions performed by the audit committee are described in the report on corporate governance included in the annual report of the company. It also includes an explanation of how independent auditor objectivity and independence is safeguarded where the independent auditor provides non-audit services.

The audit committee has recommended to the board of directors that RSM Chio Lim LLP be nominated for re-appointment as the independent external auditor at the next annual general meeting of the company.

#### 8. DIRECTORS' OPINION ON THE ADEQUACY OF INTERNAL CONTROL

Based on the internal controls and risk management systems established and maintained by the company, periodic reviews performed by management, other committees of the board and the board, and work performed by the independent internal and external auditors, the board with concurrence of the audit committee, is of the opinion that the company's internal control and risk management systems were adequate as at 31 March 2020 to address the risks relating to financial, operational, compliance and information technology controls.

#### 9. **SUBSEQUENT DEVELOPMENTS**

There are no significant developments subsequent to the release of the group's and company's preliminary financial statements, as announced on 13 July 2020, which would materially affect the group's and company's operating and financial performance as of the date of this report.

On behalf of the directors Dr. Chen Mun Ang Bee Yan, Katherine Director Director

TO THE MEMBERS OF POWERMATIC DATA SYSTEMS LIMITED

#### REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

#### OPINION

We have audited the accompanying financial statements of Powermatic Data Systems Limited (the "company") and its subsidiaries (the "group"), which comprise the consolidated statement of financial position of the group and the statement of financial position of the company as at 31 March 2020, and the consolidated statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows of the group, and statement of changes in equity of the company for the reporting year then ended, and notes to the financial statements, including the significant accounting policies.

In our opinion, the accompanying consolidated financial statements of the group and the statement of financial position and statement of changes in equity of the company are properly drawn up in accordance with the provisions of the Companies Act, Chapter 50 (the "Act") and Singapore Financial Reporting Standards (International) ("SFRS (I)") so as to give a true and fair view of the consolidated financial position of the group and the financial position of the company as at 31 March 2020 and of the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the group and the changes in equity of the company for the reporting year ended on that date.

#### **BASIS FOR OPINION**

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the Accounting and Corporate Regulatory Authority ("ACRA") Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **KEY AUDIT MATTERS**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current reporting year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have assessed and determined that there are no key audit matters to communicate in our report.

#### OTHER INFORMATION

Management is responsible for the other information. The other information comprises the information included in the statement by directors and the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

TO THE MEMBERS OF POWERMATIC DATA SYSTEMS LIMITED

#### OTHER INFORMATION (CONT'D)

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### RESPONSIBILITIES OF MANAGEMENT AND DIRECTORS FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and the financial reporting standards, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the group or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the group's financial reporting process.

#### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the group's internal control.

TO THE MEMBERS OF POWERMATIC DATA SYSTEMS LIMITED

#### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS (CONT'D)

- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- (d) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the group to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- (f) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### 1. GENERAL

Powermatic Data Systems Limited (the "company") is incorporated in Singapore with limited liability. It is listed on the Singapore Exchange Securities Trading Limited. The financial statements are presented in Singapore Dollar and they cover the company and its subsidiaries (the "group"). All financial information in these financial statements are rounded to the nearest thousand ("\$'000"), unless when otherwise indicated.

The board of directors approved and authorised these financial statements for issue on the date of the statement by directors. The directors have the power to amend and reissue the financial statements.

The company is an investment holding company.

The principal activities of the subsidiaries are disclosed in Note 18 below.

The registered office and principal place of business of the company is located at No 9 Harrison Road, #05-01, Singapore 369651.

#### Statement Of Compliance With Financial Reporting Standards

These financial statements have been prepared in accordance with the Singapore Financial Reporting Standards (International) ("SFRS(I)s") and the related Interpretations to SFRS(I) ("SFRS (I) INT") as issued by the Singapore Accounting Standards Council. They are in compliance with the provisions of the Companies Act, Chapter 50 and with the International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB).

#### Accounting convention

The financial statements are prepared on a going concern basis under the historical cost convention except where a financial reporting standard requires an alternative treatment (such as fair values) as disclosed where appropriate in these financial statements. The accounting policies in the financial reporting standards may not be applied when the effect of applying them is not material. The disclosures required by financial reporting standards may not be provided if the information resulting from that disclosure is not material.

#### Basis of preparation of the financial statements

The preparation of financial statements in conformity with generally accepted accounting principles requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting year. Actual results could differ from those estimates. The estimates and assumptions are reviewed on an ongoing basis. Apart from those involving estimations, management has made judgements in the process of applying the entity's accounting policies. The areas requiring management's most difficult, subjective or complex judgements, or areas where assumptions and estimates are significant to the financial statements, are disclosed in Note 2C below, where applicable.

31 MARCH 2020

#### 1. GENERAL (CONT'D)

#### **Basis of presentation**

The consolidated financial statements include the financial statements made up to the end of the reporting year of the company and all of its subsidiaries. The consolidated financial statements are the financial statements of the group (the parent and its subsidiaries) presented as those of a single economic entity and are prepared using uniform accounting policies for like transactions and other events in similar circumstances. All significant intragroup balances and transactions are eliminated on consolidation. Subsidiaries are consolidated from the date the reporting entity obtains control of the investee and cease when the reporting entity loses control of the investee.

Changes in the group's ownership interest in a subsidiary that do not result in the loss of control are accounted for within equity as transactions with owners in their capacity as owners. The carrying amounts of the group's and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. When the group loses control of a subsidiary it derecognises the assets and liabilities and related equity components of the former subsidiary. Any gain or loss is recognised in profit or loss. Any investment retained in the former subsidiary is measured at its fair value at the date when control is lost and is subsequently accounted as equity investments financial assets in accordance with the financial reporting standard on financial instruments.

The company's separate financial statements have been prepared on the same basis, and as permitted by the Companies Act, Chapter 50, the company's separate statement of profit or loss and other comprehensive income and statement of cash flows are not presented.

#### Covid-19 pandemic and the aftermath

The Covid-19 pandemic and the aftermath of the pandemic globally forced to suspend or limit business operations during the reporting year and the aftermath is expected for the unforeseeable period ahead. Measures were taken by the governments to contain the spread of Covid-19, including travels, social distancing and closure of non-essential services. This resulted in an economic slowdown, which have adversely impacted on the business of the reporting entity. The economic uncertainties have created questions about the uncertainties relating to the impairment or recoverability of certain assets (including impairment allowances for inventories and receivables) and the completeness or valuation of certain assets and liabilities reflected in these financial statements. An assessment was made by management whether for the current reporting year there were any indications that these assets and liabilities may be impacted adversely. If any such indication of uncertainties existed, an estimate was made of the realisable amount and or fair value of the relevant assets and the completeness of the liabilities (which balances are more fully disclosed in the relevant notes to these financial statements). The recoverability of the assets and the ability of the entity to maintain or pay its debts as they mature are dependent to a large extent on the efficacy of the fiscal and other measures undertaken by Singapore and the affected countries overseas to successfully meet those economic challenges. As the pandemic continues to progress and evolve, it is extremely challenging to predict the full extent and duration of its impact on the group's businesses and the countries where the reporting entity operates.

#### 2. SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION

#### 2A. Significant accounting policies

#### Revenue recognition

The financial reporting standard on revenue from contracts with customers establishes a five-step model to account for revenue arising from contracts with customers. Revenue is recognised at an amount that reflects the consideration to which the entity expects to be entitled in exchange for transferring goods or services to a customer (which excludes estimates of variable consideration that are subject to constraints, such as right of return exists, trade discounts, volume rebates and changes to the transaction price arising from modifications), net of any related sales taxes and excluding any amounts collected on behalf of third parties. An asset (goods or services) is transferred when or as the customer obtains control of that asset. As a practical expedient the effects of any significant financing component is not adjusted if the payment for the good or service will be within one year.

Revenue from sale of goods is recognised at a point in time when the performance obligation is satisfied by transferring a promised good or service to the customer. Control of the goods is transferred to the customer, generally on delivery of the goods (in this respect, incoterms are considered).

Revenue from rendering of services is recognised when the entity satisfies the performance obligation at a point in time generally when the significant acts have been completed and when transfer of control occurs or for services that are not significant transactions revenue is recognised as the services are provided.

#### Other income

Rental income is recognised from operating leases as income on either a straight-line basis or another systematic basis which is used if that basis is more presentative of the pattern in which benefit from the use of the underlying asset is diminished. Interest income is recognised using the effective interest method.

Dividend income from equity instruments is recognised in profit or loss only when the entity's right to receive payment of the dividend is established; it is probable that the economic benefits associated with the dividend will flow to the entity; and the amount of the dividend can be measured reliably. This is usually ex-dividend date for quoted shares.

#### **Government grants**

Government grants are recognised at fair value when there is reasonable assurance that the conditions attaching to them will be complied with and that the grants will be received. Grants in recognition of specific expenses are recognised in profit or loss on a systematic basis over the periods necessary to match them with the related costs that they are intended to compensate.

#### 2. SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION (CONT'D)

#### 2A. Significant accounting policies (cont'd)

#### **Employee benefits**

Contributions to a defined contribution retirement benefit plan are recorded as an expense as they fall due. The entity's legal or constructive obligation is limited to the amount that it is obligated to contribute for the Singapore employees to an independently administered fund (such as the Central Provident Fund in Singapore, a government managed defined contribution retirement benefit plan). For employee leave entitlement the expected cost of short-term employee benefits in the form of compensated absences is recognised in the case of accumulating compensated absences, when the employees render service that increases their entitlement to future compensated absences; and in the case of non-accumulating compensated absences, when the absences occur. A liability for bonuses is recognised where the entity is contractually obliged or where there is constructive obligation based on past practice.

Pursuant to relevant regulations of the People's Republic of China ("PRC") government, the subsidiaries in the PRC have participated in a local municipal government retirement benefits scheme (the "Scheme"), whereby the subsidiaries in the PRC are required to contribute to a certain percentage to the basic salaries of its employees to the Scheme to fund their retirement benefits. The local municipal government undertakes to assume the retirement benefits obligations of those employees of the group.

#### Foreign currency transactions

The functional currency is the Singapore dollar as it reflects the primary economic environment in which the entity operates. Transactions in foreign currencies are recorded in the functional currency at the rates ruling at the dates of the transactions. At each end of the reporting year, recorded monetary balances and balances measured at fair value that are denominated in non-functional currencies are reported at the rates ruling at the end of the reporting year and fair value measurement dates respectively. All realised and unrealised exchange adjustment gains and losses are dealt with in profit or loss. The presentation currency is the functional currency.

#### Translation of financial statements of other entities

Each entity in the group determines the appropriate functional currency as it reflects the primary economic environment in which the relevant reporting entity operates. In translating the financial statements of such an entity for incorporation in the combined financial statements in the presentation currency the assets and liabilities denominated in other currencies are translated at end of the reporting year rates of exchange and income and expense items for each statement presenting profit or loss and other comprehensive income are translated at average rates of exchange for the reporting year. The resulting translation adjustments (if any) are recognised in other comprehensive income and accumulated in a separate component of equity until the disposal of that relevant reporting entity.

31 MARCH 2020

#### 2. SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION (CONT'D)

#### 2A. Significant accounting policies (cont'd)

#### Income tax

The income taxes are accounted using the asset and liability method that requires the recognition of taxes payable or refundable for the current year and deferred tax liabilities and assets for the future tax consequence of events that have been recognised in the financial statements or tax returns. The measurements of current and deferred tax liabilities and assets are based on provisions of the enacted or substantially enacted tax laws; the effects of future changes in tax laws or rates are not anticipated. Tax expense (tax income) is the aggregate amount included in the determination of profit or loss for the reporting year in respect of current tax and deferred tax. Current and deferred income taxes are recognised as income or as an expense in profit or loss unless the tax relates to items that are recognised in the same or a different period outside profit or loss. For such items recognised outside profit or loss the current tax and deferred tax are recognised (a) in other comprehensive income if the tax is related to an item recognised in other comprehensive income and (b) directly in equity if the tax is related to an item recognised directly in equity. Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same income tax authority. The carrying amount of deferred tax assets is reviewed at each end of the reporting year and is reduced, if necessary, by the amount of any tax benefits that, based on available evidence, are not expected to be realised. A deferred tax amount is recognised for all temporary differences, unless the deferred tax amount arises from the initial recognition of an asset or liability in a transaction which (i) is not a business combination; and (ii) at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss). A deferred tax liability or asset is recognised for all taxable temporary differences associated with investments in subsidiaries except where the reporting entity is able to control the timing of the reversal of the taxable temporary difference and it is probable that the taxable temporary difference will not reverse in the foreseeable future or for deductible temporary differences, they will not reverse in the foreseeable future and they cannot be utilised against taxable profits.

#### Property, plant and equipment

Property, plant and equipment are carried at cost on initial recognition and after initial recognition at cost less any accumulated depreciation and any accumulated impairment losses. Depreciation is provided on a straight-line method to allocate the gross carrying amounts of the assets less their residual values over their estimated useful lives of each part of an item of these assets. The annual rates of depreciation are as follows:

Renovations – 20%

Furniture, fittings and equipment - 10% to 33% Freehold office unit - 2.63%

An asset is depreciated when it is available for use until it is derecognised even if during that period the item is idle. Fully depreciated assets still in use are retained in the financial statements.

The gain or loss arising from the derecognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds, if any, and the carrying amount of the item and is recognised in profit or loss. The residual value and the useful life of an asset is reviewed at least at each end of the reporting year and, if expectations differ significantly from previous estimates, the changes are accounted for as a change in an accounting estimate, and the depreciation charge for the current and future periods are adjusted.

#### Property, plant and equipment (cont'd)

Cost also includes acquisition cost, borrowing cost capitalised and any cost directly attributable to bringing the asset or component to the location and condition necessary for it to be capable of operating in the manner intended by management. Subsequent costs are recognised as an asset only when it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss when they are incurred.

#### Right-of-use assets

The right-of-use assets are accounted and presented as if they were owned such as property, plant and equipment. The annual rate of depreciation is as follows:

Leasehold property - 3.13%

#### Leases of lessee

A lease is a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration. A right-of-use asset is capitalised in the statement of financial position, measured at the present value of the unavoidable future lease payments to be made over the lease term. A liability corresponding to the capitalised lease is also recognised, adjusted for lease prepayments, lease incentives received, initial direct costs incurred and an estimate of any future restoration, removal or dismantling costs. The right-of-use asset is depreciated over the earlier of the end of the useful life of the right-of-use asset or the end of the lease term and an interest expense is recognised on the lease liability (included in finance costs). For short-term leases of 12 months or less and leases of low-value assets (such as personal computers and small office equipment) where an accounting policy choice exists under the lease standard, the lease payments are expensed to profit or loss as incurred on a straight line basis over the remaining lease term.

#### Leases of lessor

As a lessor the reporting entity classifies each of its leases as either an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset and it is presented in its statement of financial position as a receivable at an amount equal to the net investment in the lease. For a finance lease the finance income is recognised over the lease term, based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset.

#### **Investment property**

Investment property is property (land or a building or part of a building or both) owned or held under a finance lease to earn rentals or for capital appreciation or both, rather than for use in the production or supply of goods or services or for administrative purposes or sale in the ordinary course of business. It includes an investment property in the course of construction.

#### 2A. Significant accounting policies (cont'd)

#### Investment property (cont'd)

After initial recognition at cost including transaction costs the cost model is used to measure the investment property, that is, at cost less any accumulated depreciation and any accumulated impairment losses. An investment property that meets the criteria to be classified as held-for-sale is carried at the lower of carrying amount and fair value. For disclosure purposes only the fair values are measured periodically on a systematic basis at least once yearly by external independent valuers having an appropriate recognised professional qualification and recent experience in the location and category of the property being valued.

Depreciation is provided on a straight-line method to allocate the gross carrying amounts of the assets less their residual values, if any, over their estimated useful lives. The annual rates of depreciation are as follows:

Building improvements - 3.15% Freehold building - 2.63%

Freehold land - Not depreciated

#### Intangible assets

An identifiable non-monetary asset without physical substance is recognised as an intangible asset at acquisition cost if it is probable that the expected future economic benefits that are attributable to the asset will flow to the entity and the cost of the asset can be measured reliably. After initial recognition, an intangible asset with finite useful life is carried at cost less any accumulated amortisation and any accumulated impairment losses. An intangible asset with an indefinite useful life is not amortised. An intangible asset is regarded as having an indefinite useful life when, based on an analysis of all of the relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows for the entity.

The recognised amount of an intangible asset with finite useful life is allocated on a systematic basis over the best estimate of its useful life from the point at which the asset is ready for use as follows:

Certification fees - 3 years

#### **Subsidiaries**

A subsidiary is an entity including unincorporated and special purpose entity that is controlled by the reporting entity and the reporting entity is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. The existence and effect of substantive potential voting rights that the reporting entity has the practical ability to exercise (that is, substantive rights) are considered when assessing whether the reporting entity controls another entity.

In the reporting entity's separate financial statements, an investment in a subsidiary is accounted for at cost less any allowance for impairment in value. Impairment loss recognised in profit or loss for a subsidiary is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying value and the net book value of the investment in a subsidiary are not necessarily indicative of the amount that would be realised in a current market exchange.

#### Impairment of non-financial assets

The carrying amount of non-financial assets is reviewed at each end of the reporting year for indications of impairment and where an asset is impaired, it is written down through profit or loss to its estimated recoverable amount. The impairment loss is the excess of the carrying amount over the recoverable amount and is recognised in profit or loss. The recoverable amount of an asset or a cash-generating unit is the higher of its fair value less costs of disposal and its value in use. When the fair value less costs of disposal method is used, any available recent market transactions are taken into consideration. When the value in use method is adopted, in assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). At each end of the reporting year non-financial assets other than goodwill with impairment loss recognised in prior periods are assessed for possible reversal of the impairment. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been measured, net of depreciation or amortisation, if no impairment loss had been recognised.

#### **Inventories**

Inventories are measured at the lower of cost (first-in-first-out method) and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. A write down on cost is made where the cost is not recoverable or if the selling prices have declined. Cost includes all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. In the case of manufactured inventories and work-in-progress, cost includes an appropriate share of overheads based on normal operating capacity.

#### Financial instruments

Recognition and derecognition of financial instruments:

A financial asset or a financial liability is recognised in the statement of financial position when, and only when, the entity becomes party to the contractual provisions of the instrument. All other financial instruments (including regular-way purchases and sales of financial assets) are recognised and derecognised, as applicable, using trade date accounting or settlement date accounting. A financial asset is derecognised when the contractual rights to the cash flows from the financial asset expire or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the entity neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset. A financial liability is removed from the statement of financial position when, and only when, it is extinguished, that is, when the obligation specified in the contract is discharged or cancelled or expires. At initial recognition the financial asset or financial liability not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

#### Classification and measurement of financial assets:

- 1. Financial asset classified as measured at amortised cost: A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at fair value through profit or loss (FVTPL), that is (a) the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Typically trade and other receivables, bank and cash balances are classified in this category.
- 2. Financial asset that is a debt asset instrument classified as measured at fair value through other comprehensive income (FVTOCI): There were no financial assets classified in this category at reporting year end date.
- 3. Financial asset that is an equity investment measured at fair value through other comprehensive income (FVTOCI): On initial recognition of an equity investment that is not held for trading, an irrevocably election may be made to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis. Fair value changes are recognised in OCI but dividends are recognised in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. The gain or loss that is presented in OCI includes any related foreign exchange component arising on non-monetary investments (eg, equity instruments). On disposal, the cumulative fair value changes are not recycled to profit or loss but remain in reserves within equity. The weighted average or specific identification method is used when determining the cost basis of equities being disposed of.
- 4. Financial asset classified as measured at fair value through profit or loss (FVTPL): All other financial assets are classified as measured at FVTPL. In addition, on initial recognition, management may irrevocably designate a financial asset as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Classification and measurement of financial liabilities:

Financial liabilities are classified as at fair value through profit or loss (FVTPL) in either of the following circumstances: (1) the liabilities are managed, evaluated and reported internally on a fair value basis; or (2) the designation eliminates or significantly reduces an accounting mismatch that would otherwise arise. All other financial liabilities are carried at amortised cost using the effective interest method. Reclassification of any financial liability is not permitted.

#### Cash and cash equivalents

Cash and cash equivalents include bank and cash balances, on demand deposits and any highly liquid debt instruments purchased with an original maturity of three months or less. For the statement of cash flows the item includes cash and cash equivalents less cash subject to restriction, if any.

#### Fair value measurement

The fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When measuring the fair value of an asset or a liability, market observable data to the extent possible is used. If the fair value of an asset or a liability is not directly observable, an estimate is made using valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs (eg by use of the market comparable approach that reflects recent transaction prices for similar items, discounted cash flow analysis, or option pricing models refined to reflect the issuer's specific circumstances). Inputs used are consistent with the characteristics of the asset / liability that market participants would take into account. The entity's intention to hold an asset or to settle or otherwise fulfil a liability is not taken into account as relevant when measuring fair value.

Fair values are categorised into different levels in a fair value hierarchy based on the degree to which the inputs to the measurement are observable and the significance of the inputs to the fair value measurement in its entirety: Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (ie as prices) or indirectly (ie derived from prices). Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs). Transfers between levels of the fair value hierarchy are recognised at the end of the reporting period during which the change occurred.

The carrying values of current financial instruments approximate their fair values due to the short-term maturity of these instruments and the disclosures of fair value are not made when the carrying amount of current financial instruments is a reasonable approximation of the fair value. The fair values of non-current financial instruments may not be disclosed separately unless there are significant differences at the end of the reporting year and in the event the fair values are disclosed in the relevant notes to the financial statements.

#### 2B. Other explanatory information

#### **Provisions**

A liability or provision is recognised when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. A provision is made using best estimates of the amount required in settlement and where the effect of the time value of money is material, the amount recognised is the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense. Changes in estimates are reflected in profit or loss in the reporting year they occur. Warranty provisions are measured using probability models based on past experience.

#### 2B. Other explanatory information (cont'd)

#### Treasury shares

Where the entity reacquires its own equity instruments as treasury shares, the consideration paid, including any directly attributable incremental cost is deducted from equity attributable to the entity's owners until the shares are cancelled, reissued or disposed of. Where such shares are subsequently sold or reissued, any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the entity's owners and no gain or loss is recognised in profit or loss.

#### Segment reporting

The reporting entity discloses financial and descriptive information about its consolidated reportable segments. Reportable segments are operating segments or aggregations of operating segments that meet specified criteria. Operating segments are components about which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing the performance. Generally, financial information is reported on the same basis as is used internally for evaluating operating segment performance and deciding how to allocate resources to operating segments.

#### 2C. Critical judgements, assumptions and estimation uncertainties

The critical judgements made in the process of applying the accounting policies that have the most significant effect on the amounts recognised in the financial statements and the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting year, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities currently or within the next reporting year are discussed below. These estimates and assumptions are periodically monitored to ensure they incorporate all relevant information available at the date when financial statements are prepared. However, this does not prevent actual figures differing from estimates.

#### Net realisable value of inventories:

A review is made on inventory for excess inventory and declines in net realisable value below cost and an allowance is recorded against the inventory balance for any such declines. The review requires management to consider the future demand for the products. In any case the realisable value represents the best estimate of the recoverable amount and is based on the acceptable evidence available at the end of the reporting year and inherently involves estimates regarding the future expected realisable value. The usual considerations for determining the amount of allowance or write-down include ageing analysis, technical assessment and subsequent events. In general, such an evaluation process requires significant judgement and materially affects the carrying amount of inventories at the end of the reporting year. Possible changes in these estimates could result in revisions to the stated value of the inventories. The carrying amount of inventories at the end of the reporting year is disclosed in the note on inventories.

#### 2. SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION (CONT'D)

#### 2C. Critical judgements, assumptions and estimation uncertainties (cont'd)

#### Income tax amounts:

Entities in the group recognise tax liabilities and assets based on an estimation of the likely taxes due, which requires significant judgement as to the ultimate tax determination of certain items. Where the actual amount arising from these issues differs from these estimates, such differences will have an impact on income tax and deferred tax amounts in the period when such determination is made. In addition, management judgement is required in determining the amount of current and deferred tax recognised and the extent to which amounts should or can be recognised. A deferred tax asset is recognised for unused tax losses if it is probable that the entity will earn sufficient taxable profit in future periods to benefit from a reduction in tax payments. This involves the management making assumptions within its overall tax planning activities and periodically reassessing them in order to reflect changed circumstances as well as tax regulations. Moreover, the measurement of a deferred tax asset or liability reflects the manner in which the entity expects to recover the asset's carrying value or settle the liability. As a result, due to their inherent nature assessments of likelihood are judgmental and not susceptible to precise determination. The income tax amounts are disclosed in the note on income tax.

#### Contingent liability:

Contingent liability incurred are not recognised but disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent liabilities represent possible obligations that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity and are not recognised because it is not probable that an outflow of resources will be required to settle the obligation. Moreover, the amount of the obligation cannot be measured with sufficient reliability. Inevitably, the determination that the possibility that an outflow of resources embodying economic benefits is remote and that the occurrence or non-occurrence of one or more uncertain future events is not wholly within the control of the reporting entity requires significant judgment. The contingencies are disclosed in Note 34.

#### 3. RELATED PARTY RELATIONSHIPS AND TRANSACTIONS

The financial reporting standard on related party disclosures requires the reporting entity to disclose: (a) transactions with its related parties; and (b) relationships between parents and subsidiaries irrespective of whether there have been transactions between those related parties. A party is related to a party if the party controls, or is controlled by, or can significantly influence or is significantly influenced by the other party.

The ultimate controlling party is Dr Chen Mun, a director and controlling shareholder of the company.

#### 4. FINANCIAL INFORMATION BY OPERATING SEGMENTS

#### 4A. Information about reportable segment profit or loss, assets and liabilities

Disclosure of information about operating segments, products and services, the geographical areas, and the major customers are made as required by the financial reporting standard on operating segments. This disclosure standard has no impact on the reported financial performance or financial position of the reporting entity.

For management purposes the reporting entity is organised into three major strategic operating segments: (1) wireless connectivity products, (2) property and (3) corporate holding and others. Such a structural organisation is determined by the nature of risks and returns associated with each business segment and it defines the management structure as well as the internal reporting system. It represents the basis on which the management reports the primary segment information that is available and that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing the performance. They are managed separately because each business requires different strategies.

The segments and the types of products and services are as follows:

- Wireless connectivity products segment comprises manufacturing, sales, marketing and distribution of wireless connectivity products.
- Property segment comprises managing the investment properties.
- Corporate holding and others is involved in group-level corporate services.

Inter-segment sales are measured on the basis that the entity actually used to price the transfers. Internal transfer pricing policies of the reporting entity are as far as practicable based on market prices. The accounting policies of the operating segments are the same as those described in the summary of significant accounting policies.

The management reporting system evaluates performances based on a number of factors. However, the primary profitability measurement to evaluate segment's operating results is the gross profit.

Deferred tax asset for the tax losses has been recognised to the extent of the future profit streams that are probable against which the deductible temporary difference can be utilised.

For Singapore companies, the realisation of the future income tax benefits from these tax loss carryforwards is available for an unlimited future period subject to the conditions imposed by law including the retention of majority shareholders as defined.

For companies in the People's Republic of China, temporary difference from capital allowances amounting to \$Nil (2019: \$52,000) can be carried forward for 5 years.

Temporary differences arising in connection with interests in subsidiaries are insignificant.

#### 12. EARNINGS PER SHARE

The following table illustrates the numerators and denominators used to calculate basic and diluted amount per share of no par value:

	Group	
	2020	2019
	\$'000	\$'000
Numerators: earnings attributable to equity:		
A. Continuing operations: attributable to equity holders	8,733	6,995
B. Total basic earnings	8,733	6,995
C. Diluted earnings	8,733	6,995
		'000
Denominators: weighted average number of equity shares		
D. Basic	34,953	34,953
E. Diluted	34,953	34,953

The weighted average number of equity shares refers to shares in circulation during the reporting year. The ordinary share equivalents included in these calculations are: (1) the average number of ordinary shares assumed to be outstanding during the reporting year and (2) shares of ordinary share issuable upon assumed exercise of share options which (if any) would have a dilutive effect.

The basic amount per share ratio is based on the weighted average number of ordinary shares outstanding during each reporting year. It is after the neutralisation by the treasury shares.

There is no dilutive effect from the share options as they are anti-dilutive because their conversion to ordinary shares would increase earnings per share or decrease loss per share from continuing operations.

\$'000Lease liabilities, non-current129Lease liabilities, current179308

The leases are for office space and production facilities in Suzhou in the People's Republic of China. The lease contracts are usually for fixed periods of 3 to 5 years but may have extension options. Lease terms contain a wide range of different terms and conditions. The lease agreements do not impose any covenants, but leased assets may not be used as security for borrowing purposes.

At the date of transition to the new standard on leases, management elected to measure the right-of-use assets at an amount equal to the lease liabilities adjusted for any prepaid or accrued lease payments that existed at the date of transition (applied to leases previously classified as finance leases or operating leases). The lease liabilities below do not include the short-term leases and leases of low-value underlying assets. Variable lease payments which do not depend on an index or a rate or based on a percentage of revenue are not included from the initial measurement of the lease liabilities and the right-of-use assets.

#### 15. RIGHT-OF-USE ASSETS AND LEASE LIABILITIES (CONT'D)

The new standard on leases has been applied using the modified retrospective transition approach. Therefore, no comparative amounts for the year ended 31 March 2019 are presented.

On transition to the new standard on leases the weighted average incremental borrowing rate applied to lease liabilities recognised was 5.25% per annum.

#### 16. INVESTMENT PROPERTY (CONT'D)

The depreciation expense is charged under property expenses.

The investment property is two-adjoining six-storey semi-detached industrial buildings located at Nos. 7 and 9 Harrison Road, Singapore 369650/1. Other than an office unit in one of the buildings which is used by the group as its corporate head office and classified under property, plant and equipment in Note 14, the remaining units in the two buildings are leased out under operating leases. Also see Note 32 on operating lease income commitments.

The investment property is leased out under operating leases. The management has not entered into contractual obligations for the maintenance or enhancement of the investment properties.

As the lessor, the reporting entity manages the risk associated with any rights it retains in the underlying assets including any means to reduce that risk. Such means may include, insurance coverage, buy-back agreements, residual value guarantees or variable lease payments for use in excess of specified limits, having clauses in the leases providing for compensation the lessor when a property has been subjected to excess wear-and-tear during the lease term.

The fair value of investment property was measured in March 2020 based on the highest and best use method to reflect the actual market state and circumstances as of the end of the reporting year. The fair value was based on a valuation made by Colliers International Consultancy and Valuation (Singapore) Pte Ltd, a firm of independent professional valuers. The firm holds a recognised and relevant professional qualification with sufficient recent experience in the location and category of the investment property being valued. There has been no change to the valuation technique during the reporting year. Management determined that the highest and best use of the asset is the current use and that it would provide maximum value to market participants principally through its use in combination with other assets.

A description of the valuation techniques and the significant other observable inputs used in the fair value measurement are as follows:

Asset:	Nos. 7 and 9 Harrison Road, Singapore 369650/1 (excluding #05-01 which is classified under property, plant and equipment)
Fair value:	\$30,342,000 (2019: \$31,514,000)

Significant observable inputs and range (weighted average):	Price per square foot: \$1,029 (2019: \$1,086)
Relationship of unobservable inputs to fair value:	NA.
Sensitivity on management's estimate – 10% variation from estimate:	Impact – lower by \$3,034,000; higher by \$3,034,000

The financial reporting standard on financial instruments require that all investments in unquoted equity shares and contracts on those instruments must be measured at fair value. However, in limited circumstances, cost may be an appropriate estimate of fair value. That may be the case if insufficient more recent information is available to measure fair value, or if there is a wide range of possible fair value measurements and cost represents the best estimate of fair value within that range.

When information about the performance and operations of the investee becomes available after the date of initial recognition and that relevant factors exist, they may indicate that cost might not be representative of fair value. In such cases, the unquoted equity shares have to be measured fair value.

Management has not identified a market for these unquoted equity instruments and it has not made a decision on how and when it intends to dispose of them in the foreseeable future.

#### 22. TRADE AND OTHER RECEIVABLES (CONT'D)

Trade receivables are subject to the expected credit loss model under the financial reporting standard on financial instruments. The methodology applied for impairment loss is the simplified approach to measuring expected credit losses (ECL) which uses a lifetime expected loss allowance for all trade receivables. The expected lifetime losses are recognised from initial recognition of these assets. These assets are grouped based on shared credit risk characteristics and the days past due for measuring the expected credit losses. The allowance matrix is based on its historical observed default rates (over a period of 12 months) over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The loss allowance for trade receivables was determined as follows:

The amounts are written off when there are indications that there is no reasonable expectation of recovery or the failure of a debtor to make contractual payments over an extended period.

At each subsequent reporting date, an evaluation is made whether there is a significant change in credit risk by comparing the debtor's credit risk at initial recognition (based on the original, unmodified cash flows) with the credit risk at the reporting date (based on the modified cash flows). Adjustment to the loss allowance is made for any increase or decrease in credit risk.

To determine whether a financial instrument has low credit risk, management uses its internal credit risk ratings (such as external rating of "investment grade" of a financial instrument) or other methodologies that are consistent with a globally understood definition of low credit risk (such as market participant perspective taking into account all of the terms and conditions of the financial instrument).

#### 22. TRADE AND OTHER RECEIVABLES (CONT'D)

As part of the process of setting customer credit limits, different credit terms are used. The average credit period generally granted to trade receivable customers is from 30-90 days (2019: 30-90 days). But some customers take a longer period to settle the amounts.

Concentration of trade receivables customers as at the end of reporting year:

	Gro	oup
	2020	0 2019
	\$'000	\$'000
Top 1 customer	422	123
Top 2 customers	546	149
Top 3 customers	641	162

Other receivables at amortised cost shown above are subject to the expected credit loss model under the financial reporting standard on financial instruments. The other receivables at amortised cost and which can be graded as low risk individually are considered to have low credit risk. At the end of the first reporting period a loss allowance is recognised at an amount equal to 12 month expected credit losses because there has not been a significant increase in credit risk since initial recognition. No loss allowance is necessary.

At each subsequent reporting date, an evaluation is made whether there is a significant change in credit risk by comparing the debtor's credit risk at initial recognition (based on the original, unmodified cash flows) with the credit risk at the reporting date (based on the modified cash flows). Adjustment to the loss allowance is made for any increase or decrease in credit risk.

Other receivables are normally with no fixed terms and therefore there is no maturity. Related company other receivables are regarded as of low credit risk if they are guaranteed by the parent or a related company with the ability to settle the amount.

The non-current other receivables of \$2,239,000 are extended as quasi-equity loans to a subsidiary and have no fixed terms of repayment. The directors consider these receivable as quasi-equity in nature as these receivables are not expected to be repaid until such time the subsidiary has the financial resources in excess of their working capital requirements, and is in a position to return the capital. As such, these receivables have not been fair valued.

#### Capital management:

The objectives when managing capital are: to safeguard the reporting entity's ability to continue as a going concern, so that it can continue to provide returns for owners and benefits for other stakeholders, and to provide an adequate return to owners by pricing the sales commensurately with the level of risk. The management sets the amount of capital to meet its requirements and the risk taken. There were no changes in the approach to capital management during the reporting year. The management manages the capital structure and makes adjustments to it where necessary or possible in the light of changes in conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the management may adjust the amount of dividends paid to owners, return capital to owners, issue new shares, or sell assets to reduce debt. Adjusted capital comprises all components of equity (that is, share capital and reserves).

In order to maintain its listing on the Singapore Stock Exchange it has to have share capital with a free float of at least 10% of the shares. The company met the capital requirement on its initial listing and the rules limiting treasury share purchases mean it will continue to satisfy that requirement, as it did throughout the reporting year. Management receives a report from the share registrars frequently on substantial share interests showing the non-free float to ensure continuing compliance with the 10% limit throughout the reporting year.

There are no external borrowings. The debt-to-adjusted capital ratio does not provide a meaningful indicator of the risk of borrowings.

31 MARCH 2020

#### 27. SHARE OPTIONS

The company has an employee share option scheme known as the "Powermatic Data Systems Employees' Share Option Scheme 2013" (the "2013 Scheme"). The 2013 Scheme is a share incentive scheme designed to acknowledge the contributions made by the directors and employees and to give recognition to such directors and employees by giving them the opportunity to have a personal stake in the company and to attract, motivate and retain talented staff for the company's domestic and international operations.

Under the rules of the 2013 Scheme, all directors and full-time employees of the group are eligible to participate in the scheme except for employee or director who is also a controlling shareholder or an associate of a controlling shareholder. Employees of the company's associated companies are not eligible under the 2013 Scheme. The company has no associated companies as at 31 March 2020.

The aggregate number of shares over which options may be granted shall not exceed 15% of the issued share capital (excluding treasury shares) of the company on the day immediately preceding the offer date of the option.

The 2013 Scheme is administered by the Remuneration Committee comprising Tan Chao Hsiung, David (Chairman) and two other independent directors of the company, Dr. Lye Kin Mun and Yee Lat Shing, Tom.

There was no options granted during the reporting year and there was no unexercised option as at 31 March 2020.

#### 33B. FINANCIAL RISK MANAGEMENT

The main purpose for holding or issuing financial instruments is to raise and manage the finances for the entity's operating, investing and financing activities. There are exposures to the financial risks on the financial instruments such as credit risk, liquidity risk and market risk comprising interest rate, currency risk and price risk exposures. Management has certain practices for the management of financial risks.

31 MARCH 2020

#### 33. FINANCIAL INSTRUMENTS: INFORMATION ON FINANCIAL RISKS (CONT'D)

#### 33B. FINANCIAL RISK MANAGEMENT (CONT'D)

The guidelines set up the short and long term objectives and action to be taken in order to manage the financial risks. The guidelines include the following:

- (i) Minimise interest rate, currency, credit and market risk for all kinds of transactions.
- (ii) Maximise the use of "natural hedge": favouring as much as possible the natural off-setting of sales and costs and payables and receivables denominated in the same currency and therefore put in place hedging strategies only for the excess balance (if necessary). The same strategy is pursued with regard to interest rate risk.
- (iii) All financial risk management activities are carried out and monitored by senior management staff.
- (iv) All financial risk management activities are carried out following acceptable market practices.

There have been no changes to the exposure to risk, the objectives, policies and processes for managing the risk and the methods used to measure the risk.

#### 33C. FAIR VALUES OF FINANCIAL INSTRUMENTS

The analyses of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 are disclosed in the relevant notes to the financial statements. These include the significant financial instruments stated at amortised cost and at fair value in the statement of financial position. The carrying values of current financial instruments approximate their fair values due to the short-term maturity of these instruments and the disclosures of fair value are not made when the carrying amount of current financial instruments is a reasonable approximation of the fair value.

#### 33D. CREDIT RISK ON FINANCIAL ASSETS

Financial assets that are potentially subject to concentrations of credit risk and failures by counterparties to discharge their obligations in full or in a timely manner. These arise principally from cash balances with banks, cash equivalents, receivables and other financial assets. The maximum exposure to credit risk is the total of the fair value of the financial assets at the end of the reporting year. Credit risk on cash balances with banks and any other financial instruments is limited because the counter-parties are entities with acceptable credit ratings. For expected credit losses (ECL) on financial assets, the three-stage approach in the financial reporting standard on financial instruments is used to measure the impairment allowance. Under this approach the financial assets move through the three stages as their credit quality changes. However, a simplified approach is permitted by the financial reporting standards on financial instruments for financial assets that do not have a significant financing component, such as trade receivables. On initial recognition, a day-1 loss is recorded equal to the 12 month ECL (or lifetime ECL for trade receivables), unless the assets are considered credit impaired. For credit risk on trade receivables an ongoing credit evaluation is performed on the financial condition of the debtors and an impairment loss is recognised in profit or loss. Reviews and assessments of credit exposures in excess of designated limits are made. Renewals and reviews of credits limits are subject to the same review process.

Note 25 discloses the maturity of the cash and cash equivalents balances. Cash and cash equivalents are also subject to the impairment requirements of the standard on financial instruments. There was no identified impairment loss.

31 MARCH 2020

The following table analyses the non-derivative financial liabilities by remaining contractual maturity (contractual undiscounted cash flows):

	Less than 1 year	2 to 5 years	Total
Group	\$'000	\$'000	\$'000
Non-derivative financial liabilities:			
<u>2020:</u>	100	404	004

Company Non-derivative financial liabilities: 2020: Trade and other payables	288		288
At end of the year	288		288
Non-derivative financial liabilities: 2019:			
Trade and other payables	253	_	253
At end of the year	253		253

The undiscounted amounts on the borrowings with fixed and floating interest rates are determined by reference to the conditions existing at the reporting date.

The liquidity risk refers to the difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. It is expected that all the liabilities will be settled at their contractual maturity. There are no liabilities contracted to fall due after 12 months at the end of the reporting year. The average credit period taken to settle trade payables is about 90 days (2019: 90 days). The other payables are with short-term durations. The classification of the financial assets is shown in the statement of financial position as they may be available to meet liquidity needs and no further analysis is deemed necessary.

The above amounts disclosed in the maturity analysis are the contractual undiscounted cash flows and such undiscounted cash flows differ from the amount included in the statement of financial position. When the counterparty has a choice of when an amount is paid, the liability is included on the basis of the earliest date on which it can be required to pay.

31 MARCH 2020

#### 33F. INTEREST RATE RISK

The interest rate risk exposure is from changes in fixed interest rates and floating interest rates and it mainly concerns financial assets.

The following table analyses the breakdown of the significant financial instruments by type of interest rate:

	Gr	Group	
	2020 \$'000	2019 \$'000	
Financial assets with interest:			
Fixed rates	34,675	33,369	
Financial liabilities with interest:

The interest rates are disclosed in the respective notes.

Sensitivity analysis: The impact on pre-tax profit is insignificant.

#### 33G. FOREIGN CURRENCY RISKS

Foreign exchange risk arises on financial instruments that are denominated in a foreign currency, ie in a currency other than the functional currency in which they are measured. For the purpose of this financial reporting standard on financial instruments: disclosures, currency risk does not arise from financial instruments that are non-monetary items or from financial instruments denominated in the functional currency.

There is exposure to foreign currency risk as part of the group's normal business.

Sensitivity analysis:

	2020 \$'000	2019 \$'000
A hypothetical 10% strengthening in the exchange rate of the functional currency \$ against the US\$ with all other variables held constant would have an adverse effect on pre-tax profit of	(1,106)	(1,293)
A hypothetical 10% strengthening in the exchange rate of the functional currency \$ against the Thai baht with all other variables held constant would have an adverse effect on other comprehensive income of	(240)	(579)

The above table shows sensitivity to the hypothetical percentage variations in the functional currency against the relevant non-functional foreign currencies. The sensitivity rate used is the reasonably possible change in foreign exchange rates. For similar rate weakening of the functional currency against the relevant foreign currencies above, there would be comparable impacts in the opposite direction.

In management's opinion, the above sensitivity analysis is unrepresentative of the foreign currency risks as the historical exposure does not reflect the exposure in future.

The hypothetical changes in exchange rates are not based on observable market data (unobservable inputs). The sensitivity analysis is disclosed for each non-functional currency to which the entity has significant exposure at the end of the reporting year. The analysis above has been carried out on the basis that there are no hedged transactions.

#### 33H. EQUITY PRICE RISK

There are investments in equity shares or similar instruments. Such investments are exposed to both currency risk and market price risk arising from uncertainties about future values of the equity shares. The fair values of these equity shares are disclosed in notes 19 and 23.

#### 34. CONTINGENT LIABILITY

During the reporting year, a subsidiary in the group received a letter from a law firm representing a software vendor in relation to a claim against the subsidiary for the infringement of intellectual property rights. No legal litigation has been initiated by the software vendor at the date of this report. Based on the advices of external legal counsels, management are of the view that the claim is without merit and management does not consider it probable that a loss will arise. Consequently, no provision for the claim and the related costs has been made in the financial statements.

#### 35. CHANGES AND ADOPTION OF FINANCIAL REPORTING STANDARDS

For the current reporting year new or revised financial reporting standards were issued by the Singapore Accounting Standards Council. Those applicable to the reporting entity are listed below. Those applicable new or revised standards did not require any significant modification of the measurement methods or the presentation in the financial statements except for SFRS (I) 16 Leases discussed below.

SFRS (I) 16 Leases (and Leases - Illustrative Examples & Amendments to

Guidance on Other Standards)

SFRS (I) INT 23 Uncertainty over Income Tax Treatments

SFRS (I) 1-12 Improvements (2017) – Amendments: Income Taxes

#### SFRS (I) 16 Leases

The financial reporting standard on leases is effective for annual periods beginning on or after 1 January 2019 and it supersedes the previous reporting standard and the related interpretations on leases. For the lessee almost all leases are brought onto the statements of financial position under a single model (except leases of less than 12 months and leases of low-value assets), eliminating the distinction between operating and finance leases. Thus, the entity has recognised a right-of-use asset and a corresponding liability in respect of all these leases (unless they qualify for low value or short-term leases) which might have a material impact on the amounts recognised in the financial statements. The amount by which each financial statement line item is impacted (debits / (credits)) in the current reporting year 2020 by the application of the new standard on leases are disclosed in Note 15. The reporting entity elected to apply the modified retrospective approach for this standard new standard on leases. Under the modified retrospective approach the comparative Information is not restated and therefore there is no presentation of a third column for the statement of financial position.

#### 36. NEW OR AMENDED STANDARDS IN ISSUE BUT NOT YET EFFECTIVE

For the future reporting years certain new or revised financial reporting standards were issued by the Singapore Accounting Standards Council and these will only be effective for future reporting years. Those applicable to the reporting entity for future reporting years are listed below. The transfer to the applicable new or revised standards from the effective dates is not expected to result in any significant modification of the measurement methods or the presentation in the financial statements for the following year from the known or reasonably estimable information relevant to assessing the possible impact that application of the new or revised standards may have on the entity's financial statements in the period of initial application.

#### **POWERMATIC DATA SYSTEMS LIMITED**

(Company Registration No. 198900414E) (Incorporated In the Republic of Singapore)

**NOTICE IS HEREBY GIVEN** that the Thirty First Annual General Meeting of **POWERMATIC DATA SYSTEMS LIMITED** (the "Company") will be held by electronic means on Tuesday, 29 September 2020 at 11.00 a.m. (of which there will be a live webcast), to transact the following businesses:

#### **AS ORDINARY BUSINESS**

1. To receive and adopt the Statement by Directors and Audited Financial Statements of the Company for the financial year ended 31 March 2020 together with the Independent Auditor's Report thereon.

(Resolution 1)

2. To re-elect Dr. Lye Kin Mun as Director of the Company retiring pursuant to Article 99 of the Constitution of the Company.

(Resolution 2)

Dr. Lye Kin Mun will, upon re-election as Director of the Company, remain as Chairman of the Nominating Committee and a member of the Audit Committee and Remuneration Committee and will be considered independent.

3. To re-appoint Ms. Ang Bee Yan as Director of the Company pursuant to Rule 720(5) of the Listing Manual of the Singapore Exchange Securities Trading Limited.

(Resolution 3)

Ms. Ang Bee Yan will, upon re-appointment as Director of the Company, remain as Executive Director of the Company and will be considered non-independent.

4. To approve the payment of Directors' Fees of S\$52,000 for the financial year ended 31 March 2020. (FY2019: S\$52,000).

(Resolution 4)

5. To re-appoint Messrs RSM Chio Lim LLP as the Independent Auditor of the Company and to authorise the Directors of the Company to fix their remuneration.

(Resolution 5)

6. To transact any other ordinary business which may properly be transacted at an Annual General Meeting.

#### **AS SPECIAL BUSINESS**

To consider and if thought fit, to pass the following resolution as Ordinary Resolution, with or without any modifications:

#### 7. Authority to allot and issue shares

That pursuant to Section 161 of the Companies Act, Chapter 50 and Rule 806 of the Listing Manual of the Singapore Exchange Securities Trading Limited, the Directors of the Company be authorised and empowered to:

- (a) (i) issue shares in the Company ("shares") whether by way of rights, bonus or otherwise; and/or
  - (ii) make or grant offers, agreements or options (collectively, "Instruments") that might or would require shares to be issued, including but not limited to the creation and issue of (as well as adjustments to) options, warrants, debentures or other instruments convertible into shares,
  - at any time and upon such terms and conditions and for such purposes and to such persons as the Directors of the Company may in their absolute discretion deem fit; and
- (b) (notwithstanding the authority conferred by this Resolution may have ceased to be in force) issue shares in pursuance of any Instruments made or granted by the Directors of the Company while this Resolution was in force.

### NOTICE OF THIRTY FIRST ANNUAL GENERAL MEETING

#### provided that:

- (1) the aggregate number of shares (including shares to be issued in pursuance of the Instruments, made or granted pursuant to this Resolution) to be issued pursuant to this Resolution shall not exceed fifty per centum (50%) of the total number of issued shares (excluding treasury shares and subsidiary holdings) in the capital of the Company (as calculated in accordance with sub-paragraph (2) below), of which the aggregate number of shares to be issued other than on a pro rata basis to shareholders of the Company shall not exceed twenty per centum (20%) of the total number of issued shares (excluding treasury shares and subsidiary holdings) in the capital of the Company (as calculated in accordance with sub-paragraph (2) below);
- (2) (subject to such calculation as may be prescribed by the Singapore Exchange Securities Trading Limited) for the purpose of determining the aggregate number of shares that may be issued under sub-paragraph (1) above, the total number of issued shares (excluding treasury shares and subsidiary holdings) shall be based on the total number of issued shares in the capital of the Company at the time of the passing of this Resolution, after adjusting for:
  - (a) new shares arising from the conversion or exercise of any convertible securities;
  - (b) new shares arising from exercising share options or vesting of share awards, provided the options or awards were granted in compliance with Part VIII of Chapter 8; and
  - (c) any subsequent bonus issue, consolidation or subdivision of shares;
- (3) in exercising the authority conferred by this Resolution, the Company shall comply with the provisions of the Listing Manual of the Singapore Exchange Securities Trading Limited for the time being in force (unless such compliance has been waived by the Singapore Exchange Securities Trading Limited) and the Constitution of the Company; and
- (4) unless revoked or varied by the Company in a general meeting, such authority shall continue in force until the conclusion of the next Annual General Meeting of the Company or the date by which the next Annual General Meeting of the Company is required by law to be held, whichever is earlier.

[See Explanatory Notes] (Resolution 6)

By Order of the Board

Wong Yoen Har Secretary Singapore, 7 September 2020

#### **Explanatory Notes:**

The Ordinary Resolution 6 in item 7 above, if passed, will empower the Directors of the Company, effective until the conclusion of the next Annual General Meeting of the Company, or the date by which the next Annual General Meeting of the Company is required by law to be held or such authority is varied or revoked by the Company in a general meeting, whichever is the earlier, to issue shares, make or grant Instruments convertible into shares and to issue shares pursuant to such Instruments, up to a number not exceeding, in total, 50% of the total number of issued shares (excluding treasury shares and subsidiary holdings) in the capital of the Company, of which up to 20% may be issued other than on a pro-rata basis to shareholders.

For determining the aggregate number of shares that may be issued, the total number of issued shares (excluding treasury shares and subsidiary holdings) will be calculated based on the total number of issued shares (excluding treasury shares and subsidiary holdings) in the capital of the Company at the time this Ordinary Resolution is passed after adjusting for new shares arising from the conversion or exercise of any convertible securities or share options or vesting of share awards and any subsequent bonus issue, consolidation or subdivision of shares.

#### Notes:

(1) The Annual General Meeting ("the Meeting") is being convened, and will be held, by electronic means pursuant to the COVID-19 (Temporary Measures) (Alternative Arrangements for Meetings for Companies, Variable Capital Companies, Business Trusts, Unit Trusts and Debenture Holders) Order 2020.

### NOTICE OF THIRTY FIRST ANNUAL GENERAL MEETING

- (2) Alternative arrangements relating to attendance at the Meeting via electronic means (including arrangements by which the meeting can be electronically accessed via live audio-visual webcast or live audio-only stream), submission of questions to the Chairman of the Meeting in advance of the Meeting, addressing of substantial and relevant questions at the Meeting and voting by appointing the Chairman of the Meeting as proxy at the Meeting, are set out in "Instructions to Shareholders for the Thirty First Annual General Meeting 2020 and Extraordinary General Meeting".
- [3] Due to the current Covid-19 restriction orders in Singapore, a member will not be able to attend the Meeting in person. A member (whether individual or corporate) must appoint the Chairman of the Meeting as his/her/its proxy to attend, speak and vote on his/her/its behalf at the Meeting if such member wishes to exercise his/her/its voting rights at the Meeting.

Where a member (whether individual or corporate) appoints the Chairman of the Meeting as his/her/its proxy, he/she/it must give specific instructions as to voting, or abstentions from voting, in respect of a resolution in the form of proxy, failing which the appointment of the Chairman of the Meeting as proxy for that resolution will be treated as invalid.

Central Provident Fund ("CPF") and Supplementary Retirement Scheme ("SRS") investors who wish to appoint the Chairman of the Meeting as proxy should approach their respective CPF Agent Banks and SRS Operators to submit their votes by 11.00 a.m. on 17 September 2020.

- (4) The Chairman of the Meeting, as proxy, need not be a member of the Company.
- [5] The instrument appointing the Chairman of the Meeting as proxy must be submitted to the Company in the following manner:
  - (a) if submitted by post, be lodged with the Company's registered office at No. 9, Harrison Road, #05-01, Singapore 369651; or
  - (b) if submitted electronically, be submitted via email to agm@powermatic.com.sg.

in either case, at least 48 hours before the time for holding the Meeting.

A member who wishes to submit an instrument of proxy must first download, complete and sign the proxy form, before submitting it by post to the address provided above, or before scanning and sending it by email to the email address provided above.

In view of the current Covid-19 situation and the related safe distancing measures which may make it difficult for members to submit completed proxy forms by post, members are strongly encouraged to submit completed proxy forms electronically via email.

- (6) The Company shall be entitled to, and will, treat any valid instrument appointing the Chairman of the Meeting as proxy(ies) which was delivered by a member to the Company before 11.00 a.m. on 27 September 2020 as a valid instrument appointing the Chairman of the Meeting as the member's proxy to attend, speak and vote at the Meeting if:
  - (a) the member had indicated how he/she/it wished to vote for or vote against or abstain from voting on each resolution; and
  - (b) the member has not withdrawn the appointment.
- (7) A member may withdraw an instrument appointing the Chairman of the Meeting or other person(s) as proxy(ies) by sending an email to agm@powermatic.com.sg to notify the Company of the withdrawal, at least 48 hours before the time for holding the Meeting.
- (8) Submission by a member of a valid instrument appointing the Chairman of the Meeting as proxy at least 48 hours before the time for holding the Meeting will supersede any previous instrument appointing a proxy(ies) submitted by that member.
